

Articulate 360:
Storyline

Course overview

Are you new to Storyline? Have you taught yourself or need a refresher?

Our Certified Articulate Storyline course provides you with everything you need to create compelling, interactive eLearning courses using Articulate Storyline, that can be published and delivered to meet different needs and play on a variety of devices.

This three-day training course takes a practical approach to help you design your learning modules in a simple and creative way. You'll get to experiment with the building blocks of Storyline, create inbuilt and bespoke interactions, use triggers and variables, use media, motion paths and explore the benefits of creating scenario-based eLearning.

Core objectives

01

Create an interactive slide using states, layers, triggers and media, and publish to Review 360.

02

Design an activity that uses variables, animations and publish it to Review 360 for feedback.

03

Build a branching scenario, graded quizzes with feedback, and a gamification element.

Course details

Audience:

Lorem ipsum dolor sit amet, consectetur adipiscing elit.

Course dates:

Check our website for the latest dates.

Format and delivery:

Hour sessions which are instructor-led, virtual and in-person sessions.

Agenda

01

Getting Started with Storyline

Kickstart your Storyline journey by building confidence with the interface, tools, and features that power high-impact eLearning.

- Navigate the Storyline interface and key tools to manage and organise your projects efficiently.
- Accelerate content creation using built-in features, including AI Assistant.

02

Slides, States, Layers and Triggers

Unlock Storyline's core building blocks to create interactive, responsive learning experiences that go far beyond static content.

- Create interactive slides using states, layers, and triggers to control learner interaction.
- Apply properties and behaviours to design effective learning experiences.

03

Media Content and Interactive Elements

Bring your content to life with media and interactive features that capture attention and elevate the learner experience.

- Incorporate audio, video, images, and captions to create more dynamic learning content.
- Add markers to make content more memorable.

04

Working with the Timeline

Take greater creative control of your courses by using the timeline to shape movement, pacing, and visual flow.

- Coordinate animations, transitions, and motion paths to create engaging experiences.
- Synchronise audio and visuals to deliver a smoother learner journey.

Agenda

05

5

Using Variables in Storyline 360

Push the boundaries of personalisation by using variables to create dynamic learning that adapts to your audience.

- Use text, number, and true/false variables to personalise content and track learner input.
- Build branching and conditional logic to create tailored learning paths.

06

6

Quizzing, Feedback and Results Slides

Dive into the essentials of creating and managing quizzes, including different question types and features for enhanced assessments.

- Explore graded, survey, freeform, and AI question functionality.
- Customise feedback layers, quiz settings, and results slides to improve the learner experience.

07

7

Branched Scenarios and Screen Recording

Build compelling learning experiences by integrating interactive storytelling and game mechanics to boost learner motivation.

- Design branching scenarios that support decision-making and reflect real-world challenges.
- Use view, try, and test modes to create effective system training.

08

8

Publishing and Player Design

Prepare your course for delivery with confidence by refining the learner experience and optimising settings for every output.

- Apply publishing best practices to balance quality, compatibility, and performance.
- Customise the player and course settings to support usability, accessibility, and learner needs.

Pre-requisites

Training sessions are designed for a variety of skill levels. All participants should have basic computer skills and familiarity with some of the more common user interfaces, such as PowerPoint.

All three days of training are interactive and hands-on. Participants are required to have Articulate 360 installed with the latest version on their PC (or Mac with Windows Interface E.g. Parallels), or the Articulate 360 free trial.

All attendees will need:

- The latest version of Storyline 360 installed and ready to use
- Check [your system requirements](#) to guide you on what you need
- For virtual training, we recommend two screens for an optimum learning experience

“Saffy was absolutely fantastic. The session was ran so professionally, with lots of patience and allowed time to practice. She was able to accommodate our different needs (timing, pace etc.) The course also provided many resources to aid us in building accessible courses using the Articulate tools, and other best practices.”

**SENIOR TRAINING AND EDUCATION MANAGER,
VISIT BRITAIN/ VISIT ENGLAND**

“Brilliant training, very engaging and useful with a good mix of instruction and activity. The training was well-presented and I liked that discussion was encouraged – it was really good that Saffy encouraged and allowed time for this.

Thank you very much for enjoyable and valuable sessions, thank you!”

JOANNA WALDRON
SENIOR LEARNING DESIGNER, SODEXO
